Gap Analysis Discussion

Doctrine: Capability Needs & Requirements

10 OCTOBER 2013

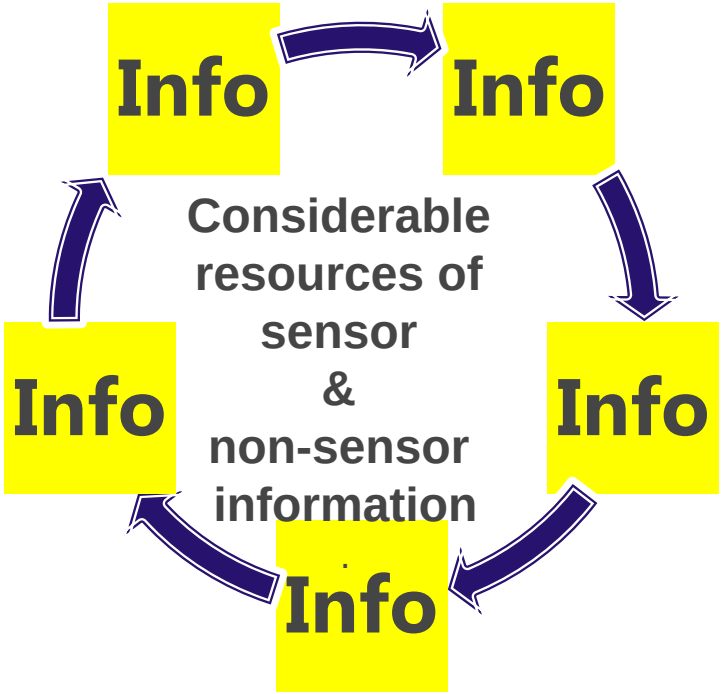
CDR DEU N René Levien

NON SENSITIVE INFORMATION RELEASABLE TO THE PUBLIC

Current MSA Situation & Problems

What is? - Doctrine (The way we work)

Pull of Information



Capability Needs & Requirements

<u>Doctrine Needs</u> (The way we work)

- Fair, mutual and enhanced information sharing using a two-way flow of information based on bi/multi-lateral agreements built on trust (collaborative capability)
- Need to share doctrine (mindset) or better “responsibility to provide”
- Protocols governing the release of expanded or classified information
- Push instead of pull method, with constant information flow.

Capability Needs & Requirements

Doctrine Needs (The way we work)

- Standard protocols and a framework for sharing information & info requirements & information exchange procedures to assure non-delayed and rapid information sharing

- Rapid dissemination to the participants of the respective networks

- Want to know what I don't know!

Capability Needs & Requirements

Doctrine Needs (The way we work)

- Comprehensive Approach
- Routine and accelerated levels of support
- Use of “associated” support in information sourcing
- Global awareness and understanding of MSA
- Sourcing and sharing of reliable, actionable MDA based on different sources (mix of classified military, intelligence & open sources)

Capability Needs & Requirements

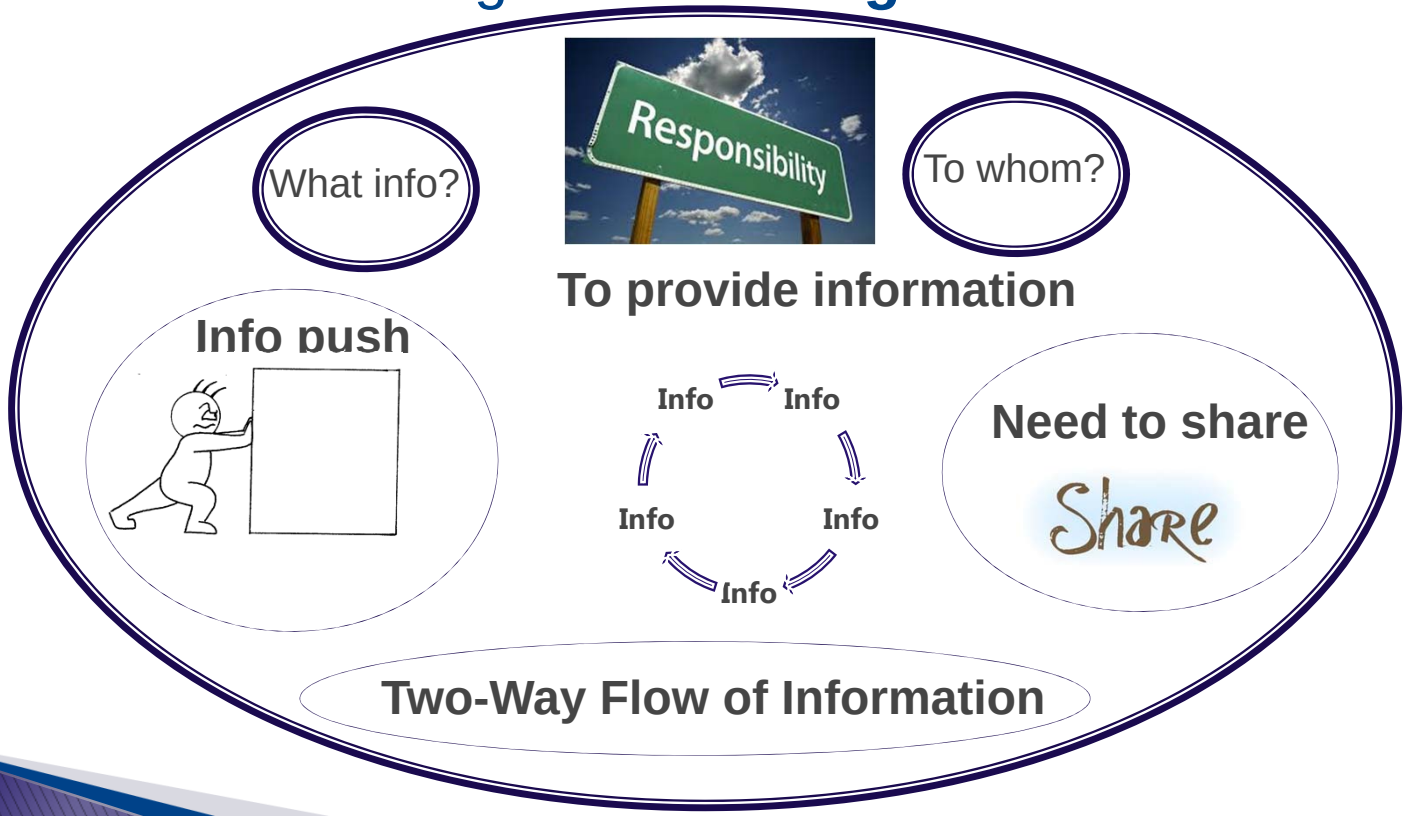
Doctrine Requirements (The way we work)

- MSA network comprised of an functional, [organizational and personal] dimension
- Established system of permanent & routine cooperation, collaboration, coordination among MSA stakeholders
- Strategic communication plan to promote awareness and understanding of MSA

Capability Needs & Requirements

Doctrine Requirements (The way we work)

Framework of rules and procedures for national, regional, inter-regional **MSA regimes**



Capability Needs & Requirements

Doctrine Requirements (The way we work)

Enterprise that provides global support to regional MSA Regimes
